
Excel for Assessment 101:

Using Excel to Manage and Make Sense of Evidence of Student Learning

**Thursday, November 4, 2010
2:30 pm - 3:30 pm in
the Faculty Innovation Center
William H. Hannon Library**

*You've collected the evidence of student learning.
What's next?*

In Excel for Assessment 101 you'll learn how to transform scored rubrics, completed surveys, exam responses, and more, into meaningful assessment data. We will guide you through the basics of using Microsoft Excel for data management and analysis, and give you the opportunity to work hands-on with sample data.

Please RSVP to assessment@lmu.edu or Ext. 82628
