As an educator, you are constantly observing the effects of your approaches in the classroom, taking note of what works and what doesn't, and adjusting your methods accordingly. This workshop will show you how to apply this model for improvement in a strategic way at the program level – to use evidence from student work and surveys to make effective modifications within a realistic timeframe.

Lunch will be provided, please RSVP to assessment@lmu.edu or 310.258.2628.
Visit us on the web at www.lmu.edu/assessment.

This program will be video and audio taped and may be podcast. By your willing participation in the program, you expressly and irrevocably consent to be photographed, video taped and/or audio taped and quoted/cited. The films, tapes, and other digital recordings will become the property of the Center of Teaching Excellence, LMU.
