Event Locations and Equipment

- Please see the Student Leadership & Development and Conference and Event Services website for a comprehensive list of possible locations, capacities and available equipment.

Scheduling an Event

- Students may only schedule events as a registered student group. Personal events are prohibited. Registered student groups may not schedule any events representing outside groups.
- All registered student group events held on campus must be documented by an approved Activity Planner.
- An Activity Planner is a form used to schedule an event or meeting on campus. It provides information such as date, time, location and other details pertaining to the event.
- Student Leadership & Development approves the Activity Planner, which indicates that the concept of the event is approved as stated. The approval does not guarantee that the event is scheduled. The event will then be booked in the scheduling software program according to availability. Events are not officially scheduled until a confirmation with a space assigned is received.
- To schedule the event:
 - Pick up an Activity Planner in Student Leadership & Development, Malone 201.
 - Check with Student Leadership & Development to see if your requested date and location are available.

- Answer all questions on the form and provide a diagram for any space other than a classroom, the Bird Nest, the Living Room, and Malone 306 and 403.
- Collect the necessary approval signatures and additional forms (see attached chart).
- Return the Activity Planner to Student Leadership & Development for final approval. It is important to meet with a staff person rather than just dropping off your paperwork. This will help guarantee timely processing of your request.
- Student Leadership & Development will enter all information into the scheduling software where the event is scheduled and confirmed.
- Keep a copy of the Activity Planner for your records.
- Once the event is scheduled a confirmation will be sent to the contact person identified on the form.
- Disciplinary action may result for misrepresentation of an event such as receiving approval for a club meeting and instead holding a private birthday party or stating no food will be served when in fact it is being served.
